- 3. IRMD SURVEY FOLLOWUP. Representatives from the Information Resources Management Division (IRMD) met with the Deputy Director, OLL, and representatives to discuss the results of IRMD's survey of OLL's information management and registry operation. DD/OLL reviewed the recommendations of the report and indicated steps were underway to implement most of the recommendations. He said that the report was very useful and praised the efforts of the survey team. One of the key recommendations already implemented was the separation of the duties of the Chief of Registry from those of the Records Management Officer. He indicated that OLL would prepare a formal response in which he would ask the team to return in a year to review OLL's progress in implementing the recommendations.
- 4. TS DOCUMENTS SEARCH. OIS annuitants resumed work this week on their search for unaccounted TS collateral documents. Two annuitants are searching the retired record holdings of the Office of the Comptroller. Another annuitant is searching the retired holdings of the Office of Scientific and Weapons Research. Other representatives from IRMD continue to process information provided by the annuitants, adjusting the TSCADS data base to reflect the results of their search and review efforts.

B. SIGNIFICANT EVENTS AND ACTIVITIES

- l. INFORMATION SECURITY PROGRAM AND ISOO FEEDBACK. The Director of the Information Security Oversight Office (ISOO) expressed his appreciation to the Agency in a recent letter to the Deputy Director for Administration for information provided to ISOO concerning standard cover packets or envelopes for use in transmitting classified micrographic material. ISOO had requested the Agency's views on a recommendation by the Department of Army that ISOO issue new cover packets or envelopes as standard forms for Government-wide use. IRMD informed ISOO that special envelopes for classified microfilming already existed and were available to members of the Intelligence Community. ISOO informed the Army of the foregoing and, therefore, did not approve the Army's recommendation.
- 2. CLASSIFICATION REVIEW ACTIVITIES. Representatives from the Department of State met with C/CRD and a representative to discuss classification of certain material in the 1961 volume on Vietnam of the FOREIGN RELATIONS OF THE UNITED STATES (FRUS). Among the more substantive items reviewed, was information about the reflections of Diem and Nhu concerning how they perceived the plans and activities of the Government of Vietnam for that era. The Department believed the material should be included in that volume of the FRUS. CRD was sympathetic to their request and said they saw little difficulty coordinating approval with the Directorate of Operations.

and members of the Information Technology Branch, have begun a series of visits to document control points throughout the Agency to review their procedures for using the CDOCS portion of The Records Information System. Although all expected users of CDOCS received training on the system last fall, many components did not begin using the system until the beginning of January. On 3 January, some 23 components were using TRIS, the largest utilization of the system since it was activated in August 1985. The visits by ITB personnel should reinforce the training received earlier and highlight some of CDOC's features that components should make greater use of.

2. SIGNIFICANT EVENTS AND ACTIVITIES

- a. ISOO Feedback. The Director of the Information Security Oversight Office (ISOO) expressed his appreciation to the Agency in a recent letter to the Deputy Director for Administration for information we provided to ISOO concerning standard cover packets or envelopes for use in transmitting classified micrographic material. ISOO had earlier requested Agency views on a recommendation by the Department of Army that ISOO issue new cover packets or envelopes as standard forms for Government-wide use. We informed ISOO that special envelopes for classified microfilming already existed and were available to members of the Intelligence Community. As a result, ISOO elected not to approve the Army's recommendation and has informed them of the existence of the envelopes already in use with microfilm.
- b. Records Center. Records Center personnel performed the following activities during the week:

RAMS:

Made 6 additions and 7 changes.

ARCINS:

Jobs received/edited: 5. Jobs completed: 3.

Accessions:

Received 11 jobs totaling

93 cubic feet.

References:

Serviced 1,762 requests

for records.

3. SCHEDULED MEETINGS AND EVENTS

Chief, IRMD, Chief, Information Control Branch, and IMB, will accompany D/OIS on 9 January to meet with officials of offices that will be to discuss the proposed Information Services Center (ISC) to be established there. The discussions will focus primarily on the manning requirements of the Center, needed computer services and terminals, and securing the commitment of all parties to the establishment of a Center.
